

When I went to the moon

by Eleisha

My friend and I went to the moon. We brought some food and we said good by to our friends and family. We counted down 10, 9, 8, 7, 6, 5, 4, 3, 2, 1, blast off! It was a happy day for us. We started to play games. We got off of the ship and we started to jump. When we got hungry we would go in the ship and eat. Then we would try and play tag and run and talk. If the Earth was close we would sit down and look at it. Then we would sing a song. Then if we got tamer we would fly right back home.
