Our trip to the moon.

In April of 2001 My best friend and I went to the moon. The moon is 200 miles 4,200 Millers from Earth. It took us two days to get to the moon. The space shuttle We Went in did good going up and coming back. We learend alot our New thing at the moon. We Learnd that what when the moon turnes into a blue moon it turnes dark orngees yellow and at last Alusten got in contacet with us and we had to go home. We had a verey fun time. In space we ate popcorne and chicken fried steak and Pepsi soda.
