The Moon

Drake

The day Alex and I went to the moon.
One day Alex and I went to the moon.
First, we were waiting on the mail to come
and it finally came it was a free ride to space
so the next morning we woke up and saw
people standing next to our bed and said
let's go so when we got into the space shuttle
we saw many buttons so they said blastoff and
we were in space. So when we were in space we
saw some of the plannets. So when we got on
the moon we had to put on our space suits. We
saw the flag I thought I was about to fall
off the moon but Alex did not. So when we
got back to Earth we said thank you and we all
got home and we all tell asleep.
